## Daycares for All Children System (pilot project)

### Service Content

This is a new daycare system available to households whose children are not enrolled in a childcare facility, regardless of the guardians' work status. This system is scheduled to launch in FY2026.

Prior to the introduction of the system, the City of Sendai will conduct a pilot project at designated childcare facilities with the condition of up to 10 hours of use per month for eligible children.

Encourage children's growth through providing opportunities of participating in group activities!

### Merits of the system

Guardians can take a break from childrearing!

Nursery school teachers can offer advice on childcare worries!

#### Eligibility

Children who meet the following conditions are eligible.

- A child between 6 months of age up and 2 years old living in Sendai who is not enrolled in a childcare facility.
- Desired hours of use is less than 10 hours per month. (Note 1)

Note 1...If you wish to use the daycare service continuously after exceeding the quota of 10 hours per month, you may use the temporary childcare service. However, as temporary childcare services are reservation-based, it is not guaranteed that your requested date and time of use are available.

#### Term of use (During pilot project)

From May 1 (Wed), 2024 to March 31 (Mon), 2025

- Year-round application for childcare service (enrollment beginning in October, etc.) is also available. However, if the service has reached its capacity, you will have to wait for a vacancy.
- Some designated facilities will be starting their service from August 1 (Thu), 2024. Please check the reverse side of this flyer for further information.

#### Fees

300 yen per child per hour

- Households receiving welfare and are exempt from residential tax can use this service for free.
- You must pay actual expenses such as meal fees to the facility where you are using this service.
